Promoting Wellbeing in KLU: World Health Day

07/04/2022

Venue: FED Block, KL University

On 07th April, 2022 at KL University, Department of Biotechnology successfully hosted a World Health Day event under the theme “Our planet, our health”. This report details the various activities conducted to raise awareness about important health issues and promote well-being among students, faculty, and staff. Free health screenings and blood typing were provided by Department of Biotechnology for all university first year students. This allowed participants to assess their health status and receive initial consultations.

Circulated flyers in the campus and designed posters to create awareness among the university students and faculty

The event witnessed enthusiastic participation from a large number of students of about 370, faculty, and staff. Engaging activities and informative sessions ensured a well-rounded learning experience for all attendees. Flyers, posters, and social media posts were used to advertise the campaign dates, location, and benefits of knowing your blood type. A registration desk was set up to collect participant information and ensure a smooth flow.

Faculty and students at blood typing near FED block, KL University

Brief talks were delivered by department faculty on the importance of blood donation, blood group compatibility, and dispelling myths about blood donation. Participants received their blood group results and information on blood donation drives in the area. The World Health Day event was a resounding success. The interactive format and diverse activities provided valuable information and resources, empowering the university community to prioritize their health. The blood grouping campaign proved to be a valuable initiative in promoting blood donation awareness and knowledge. By continuing to organize such events, we can create a more informed and engaged community of potential blood donors, ultimately contributing to a stronger blood supply system. The university acknowledges the contributions of Biotechnology department for making the event possible.
