

Name of Event: Conclave

Description:

A set of topics will be provided to the participants before the commencement of the event then a topic will be randomly provided to each participant at the time of event. Participants should debate on the topic in the given time.

GUIDELINES:

Round 1:

Topic: Topics related to civil engineering

- A set of topics will be given few days before the event to the participant, but among them anyone will give during the time of event to a particular Participant Randomly.
- It is a role play where participants must debate on given topic. Each side will be given equal time.
- Proposition and opposition participant must follow 3 orders of debate.
- In the 1st order proposition and opposition participants will be given each 2 minutes for the debate
- In the 3rd order proposition and opposition participants will be given other 2 minutes each to elaborate the debate
- Finally, each side will be given 2 minutes of rebuttal, where each side will explain why the opponent's opinion is false.
- In Points of interruption (POI) the opposing debater can ask to challenge the representative. The speaker can decide whether they will entertain the interruption, if he agrees then POI will be given 30 seconds to speak.
- Participants are divided into individual teams before the competition.
- Judge's will decide the results of the debate.

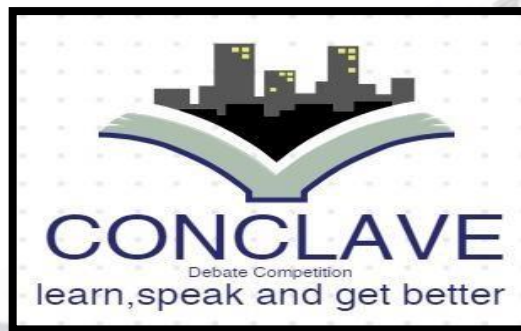

Round 2:

- Shortlisted participants will be receiving Event links and other necessary details through mails/WhatsApp.
- Topic for the debate will be given on spot at the competition.
- On basis of judgement by the judge's panel, winners of the competition will be declared
