

WORKSHOP ON MIX CONCRETE DESIGN

24 th Aug 2012: Department of Civil engineering K L University organized a workshop on MIX CONCRETE DESIGN. Nirmaan Sanjeevani the Mobile Concrete Testing Laboratory was arranged by Anjani Portland Cements Ltd, Which provides the Mobile concrete solutions on wheels which consists of different cement testing equipments to test the quality, strength of cement and concrete at construction sites. The following tests were been explained during their presentation

- Test for the quality of raw particulate cement
- Demonstrate the optimum mix for diverse cement uses
- Test for the strength of concrete on site of the customer
- Test the quality of cement & water used at the construction site

All the faculty members and students of Civil Engineering Department from K L University and other Engineering Colleges in and around Vijayawada and Guntur District actively participated in this Workshop.
