

K L UNIVERSITY
CIVIL ENGINEERING DEPARTMENT
ENVIRONMENTAL ENGINEERING AND WATER RESOURCES RESEARCH GROUP &
CLUB ACTIVITIES

Report

The Environmental Engineering and Water resources club activity begins at 5PM in Room No. M208. Dr.Y.Sreeramulu, Group head briefed the motto behind the club formation, benefits acquiring by conduction of various activities. He readout the list of activities to be planned to organize by the club i.e. Industrial visits, guest lectures, research, projects, Quiz, community awareness campaigns, innovative ideas leading to qualitative research / funded projects. He also formed the governing body and office bearers of the club as follows:

Governing body:	1. Chief mentor:	Group Head
	2. GB Members:	All faculties in the group
Office bearers:	1. President:	student nominated from IV/IV B.Tech
	2. Vice President:	student nominated from III/IV B. Tech
	3. Secretary:	student nominated from III/IV B. Tech
	4. Treasurer:	student nominated from III/IV B. Tech

After formation of the governing body, Dr.Y.Sreeramulu delivered a technical talk on “Upcoming Research trends in Environmental engineering – A Case study” through power point presentation. In his presentation, explained the importance of research, research methodology, thrust areas, field problems, various modellings, 24x7 water supply, sophisticated free downloaded & purchased software’s and packages in environmental engineering domain.

Dr.M.Anjaneya Prasad, RPAC chairman shared his execution experience of about few rainwater harvesting structures with case studies of Osmania and JNTU. He also discussed on mathematical modelling for solving water resources problems.

Dr.A.Sivasankar explained that how geospatial technologies are useful to solve the civil engineering research problems. He also covered geospatial solutions for society problems.

Dr.K.Rajasekhar reddy and Mr.Satish Chandra open the session for group discussion for the students to chalk out action plan for doing club activity. Students are enthusiastically participated in the discussion and assured to submit a report by 16/03/2015. Discussion among the faculties and students continued till 8PM.
