Summary:

The Indian chemical industry is one of the most important components of our economy and contributes around 7% to the nation's Gross Domestic Product (GDP). Amidst the global pandemic, the chemical industry has been one of the only few sectors to have not only survived it but also grown by leaps and bounds. Taking into consideration that India is the 6th largest producer of chemicals in the world and 3rd in Asia has aided the Indian chemical industry which is now set to capitalize on forthcoming opportunities.
