Educational is every child's right. It equips them with knowledge and skills, they need to realize their potential and to protect themselves from harm and better quality of life educational brings, translates in to huge benefits of society

KLU IEEE Student Branch conducted its first cognizance line-up on 24<sup>th</sup> July 2013. This is an awareness programme conducted by the WIE student members of K.L.University. The main agenda of this programme is to provide awareness to the school students regarding their safety and to show them various career opportunities available for various careers they choose.

The first session is to illustrate the students regarding their physical fitness and to teach them the necessity of the requirement of effective communication skills.

During the first session the Students were educated the inevitability of being physically and mentally fit and were asked to mentor their respective careers and they were also told regarding the necessity of the effective communication skills.

A WIE student interacting with students of REVENDRAPADU ZPHS, describing about future career options they have and how to evolve their talent.

WIE students empowering girls by addressing about adverse effects of child marriages and challenges that are facing by girls in near future

During the final session, pupils are personally interacting with our organisers regarding their personal doubts about their career and questions were queried about the scope of engineering

In this session the students were taught the steps needed to follow to acquire the best career, they were motivated and encouraged to develop their personality and their knowledge
