A Report on Conservation of Biodiversity **Conducted on 28-10-2022 in Chirravuru Village**

KL Deemed to be University (Koneru Lakshmaiah Education Foundation) College of Pharmacy; National Service Scheme (NSS) has conducted awareness programme on “Conservation of Diversity” on 28-10-2022 at ZPH School Chirravuru Village, Tadepalli Mandal, Guntur District, Andhra Pradesh.

Details of the Program:

On the eve of Conservation of biodiversity, Team KLEF Pharmacy NSS Unit-06, NSS Volunteers have interacted with the ZPH School Students and explained the importance of Biodiversity, It is the variety of different types of life found on the Earth. Our planet is now in the middle of the sixth mass extinction of species, the worst since the loss of the dinosaurs 65 million years ago.

Earth's Environment and Climate is undergoing drastic changes recently all driven by unsustainable development activities and natural resources are getting depleted. Sadly 99 percent of currently threatened species are at risk from human activities. Habitat loss and degradation, Climate change and forest fragmentation all driven by human developmental activities are the primary causes of decline. Many of the Earth's ecosystems are at critical points of depletion or irreversible change. It is estimated that by 2050, if current consumption and production patterns remain the same and with a rising population expected to reach 9.6 billion, we will need three planets to sustain our ways of living and consumption.

Environmental depletion will be an irreplaceable loss to the youth. The involvement of student community in environment protection and development

decision-making and in the implementation of programmes for biodiversity conservation is critical.

It is recognized that lack of awareness of significance of biodiversity is the biggest barrier to conservation. Today's generation has a special responsibility in relation to the environment. A number of environmental risks and hazards affect young people, as they have to live in a deteriorating environment. Many, especially young children, are particularly vulnerable to environmental risks associated with, for example, access to clean and safe drinking water.

Our Programme officer Dr.R.Supriya cherished the initiative of the volunteers and planned accordingly. The NSS volunteers are supervised by faculty Dr.R.Supriya & Coordinators Mr.P.Suresh, Mr.G.Chandra Sekhar, Research advisor Dr.M.Bapuji were participated in this activity.

All the NSS volunteers from pharmacy department and the faculty were appreciated by Dr.G.Chakravarthi, Principal College of pharmacy, Mr.P.Sai Vijay, Director, SAC, Dr.Ch. Hanumantha Rao (Dean, Student Affairs), Mr.P.Srikanth Reddy, Coordinator, KLEF NSS Cell.

Details of the Event:

Name of the Event : Conservation of Biodiversity

Date of the Event : 28-10-2022

Time : 9:30 AM To 1:30 PM

Venue : Chirravuru

No. of Participants : Students: 35 Faculty, Staff: 05

No. of Beneficiaries: 120
