A small interactive session with students of ZPH school to not to use plastic and keep their premises clean and hygiene.

In Recent Times plastic usage has been increasing abruptly, so we decided to create awareness on it. Plastic bags are cheap and light weight so people are interested to use these plastic bags rather than cloth bags which are costlier than plastic.

* Removing Plastic Materials *

So, we decided to create awareness that environment is much more valuable than anything else. As a part of Swacch Bharat we collected all the plastic materials that are thrown across the roads.

All the volunteers were divided into groups by the program officer with a faculty along with them and went in four directions of CHIRRAVURU, to ensure that the volunteers covered most of the village premises.
