DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

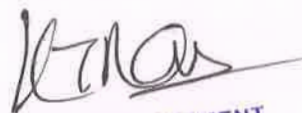

Minutes of 28th Board of Studies Meeting

24th May 2022

28th BOS meeting of Computer Science and Engineering Department held on 24th May 2022 in online mode (Microsoft Teams) from 2:00 PM to 5:00PM.

The Following members were present:

1. Dr. K. THIRUPATHI RAO, PROFESSOR, CHAIRMAN
2. Dr. G PARDHA SARADHI VARAMA, VICE CHANCELLOR, MEMBER
3. Dr. MADHU MUTHYAM, PROFESSOR, EXTERNAL MEMBER
4. Dr. AMARALINGESWARA RAO KAKA, PROGRAM DIRECTOR, EXTERNAL MEMBER
5. Mr. JAGAN MOHAN CHEVVAKULA, Sr. QA MANAGER, EXTERNAL MEMBER
6. Mr. V. HARI KIRAN, ASSOCIATE PROFESSOR, MEMBER
7. Dr. T PAVAN KUMAR, PROFESSOR, MEMBER
8. Dr. CHIRANJEEVI, PROFESSOR, MEMBER
9. Dr. N. SRINIVASU, PROFESSOR, MEMBER
10. Dr. K.V. DURGA KIRAN, PROFESSOR, MEMBER
11. Dr. A SENTHIL, PROFESSOR, MEMBER
12. Dr. MD. MOULANA, PROFESSOR, MEMBER
13. Dr. T. SANTHI SRI, PROFESSOR, MEMBER
14. Dr. A. V PRAVEEN KRISHNA, ASSOC.PROFESSOR, MEMBER

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

AGENDA and RESOLUTIONS

AGENDA ITEM-1

Consider and approve DAC minutes held on 22 nd May 2022.	Resolution: Approved DAC minutes and recommended to Academic Council for approval.
---------------------------------------------------------------------	------------------------------------------------------------------------------------

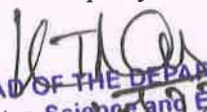

- Chairman of BoS commenced the meeting by welcoming and introducing the external members, to the internal and co-opted members and thanked them for accepting to become the member of the Board of Studies.
- Chairman of the BoS informed all the members about the Department Academic Committee (DAC) meeting held on 22nd May 2022 (Agenda Item No: 1) and highlighted the major resolutions of discussion.

It is resolved to approve the recommendations made by DAC. **Annexure-1 DAC minutes (Dt: 22-05-2022)**

AGENDA ITEM-2

Proposed to introduce two courses under engineering science category for B.Tech-CSE 2022-23 admitted Batch students based on the feedback received from stakeholders	Resolution: Approved the introduced courses for B.Tech-CSE 2022-23 admitted Batch students and the same is recommended to Academic Council for approval
----------------------------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------

- i. Dr. Md. Mujahid, Academic Peer, Recommend the introduction of a new course on "Introduction to Electronic Systems and IoT" at our institution. In today's rapidly evolving technological landscape, this course has the potential to provide students with invaluable knowledge and skills that are highly relevant to the modern world. It is resolved to approve the introduction of the new course "Introduction to Electronic Systems and IoT" for 2022-23 admitted batch CSE students.
- ii. Dr. A. Srinath, Dean-Skill Development, recommend including an IoT workshop as an integral part of the curriculum. This hands-on experience will provide students with practical skills in IoT technology, enhancing their understanding and employability in the rapidly evolving field of Internet of Things. The BoS recognized the importance of preparing students for the rapidly evolving

technology landscape and acknowledges that this workshop will enhance their practical knowledge and skills in the field of IoT. It is resolved to approve the introduction of the new course "IoT Workshop" for 2022-23 admitted batch CSE students.

S. No	Course Code	Course Title	Course Type	Credits	Remarks
1	22EC1102	Introduction to Electronic Systems & IoT	Engineering Science	2	Introduced to provide basic knowledge on electronic systems and IoT components to the students
2	22SC1209	IoT Workshop	Engineering Science	2	Introduced in place of Design Tools Workshop-II course.

The detailed syllabus for the list of proposed courses is given in Annexure-2(a)

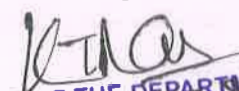

The detailed feedback and action taken report is presented in Annexure-2(b)

AGENDA ITEM-3

Consider and approve the curriculum structure of B.Tech-CSE, M.Tech-CSE and M.Tech-AI&DS programs offered for 2022-23 admitted batch students.	Resolution: Approved 2022-23 admitted batch B.Tech and M.Tech curriculum structures and recommended to Academic Council for approval.
------------------------------------------------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------

The BOS members discussed the proposed course structures of B.Tech-CSE, M.Tech-CSE and M.Tech-AI&DS, 2022-23 admitted batches of Computer Science and Engineering department.

- Dr. K Thirupathi Rao, Chairman BOS discussed the category wise courses and credits of B.Tech CSE curriculum structure. 2022-23 Admitted batch B. Tech CSE requires a minimum of 164 credits to acquire Regular Degree.
- Students require an extra 20 credits to acquire an Honor Degree. For these extra 20 credits, students must take the courses in advance or peer mentor mode from those offered in Professional Core, Professional Electives, skill development and Project categories.
- The variation in credits and evolution procedure of advance and peer mentor courses is discussed and approved.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

- The BoS members approved the proposed changes and agreed that these changes are necessary for B.Tech Computer Science and Engineering students to be ready as per industry needs.
- Dr K. Thirupathi Rao discussed the curriculum structure of M.Tech-CSE and M.Tech-AI&DS. All the BOS members agree that it is well designed and covers a wide range of topics and needs.

The detailed Course Structure of B.Tech-CSE 2022-23 admitted batch is given in Annexure-3(a)

The detailed Course Structure of M.Tech-CSE, M.Tech -AI&DS 2022-23 admitted batch is given in Annexure-3(b)

AGENDA ITEM-4

Consider and approve the Program Development Document for syllabus of B.Tech & M.Tech programs offered for 2022-23 admitted batch students	Resolution: Approved the Program Development Document (PDD) for syllabus of B.Tech & M.Tech programs offered for 2022-23 admitted batch students
--------------------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------

- By considering all the changes in curriculum, PDDs for 2022-23 B.Tech and M.Tech admitted batches are discussed.
- It is resolved to approve the PDDs of B.Tech and M.Tech programs of 2022-23

The detailed Program Development Document for B.Tech Computer Science and Engineering Program is given in Annexure-4(a).

The detailed Program Development Document for M.Tech Computer Science and Engineering Program is given in Annexure-4(b).

The detailed Program Development Document for M.Tech Artificial Intelligence & Data Science Program is given in Annexure-4(c).

AGENDA ITEM-5

Consider and approve the list of MOOCs courses proposed for 2022-23 admitted batch students.	Resolution: The courses offered in MOOC's mode are discussed and finalized. The courses are recommended to the Academic Council for approval.
----------------------------------------------------------------------------------------------	-----------------------------------------------------------------------------------------------------------------------------------------------

BoS members are agreed to offer Open Elective, Management Elective, Foreign Language elective courses through MOOCs (Coursera, NPTEL) platform to provide academic flexibilities and to develop more effective learning experiences for the students.

It is resolved that the list of MOOC's Courses is approved for the students of B.Tech -CSE 2022-23 admitted batch. The resolution is recommended to the Academic Council for approval.

The detailed list of recommended MOOCs Courses is given through Annexure-5.

AGENDA ITEM-6

Consider and approve the list of Value-Added courses proposed for 2022-23 admitted batch students.	Resolution: List of Value-Added courses are finalized and recommended to Academic Council for approval.
----------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------

To enrich the curriculum and to provide students with the skills they need to succeed in the workplace, all the BoS members are recommended to offer a list of value-added courses to 2022-23 admitted batch students.

It is resolved to offer the proposed list of value-added courses to 2022-23 B.Tech admitted batch students. The resolution is recommended to the Academic Council for approval.

The detailed list of Value-Added Courses is given in Annexure-6.

AGENDA ITEM-7

Discussion on the skill development and progression of the students.	Resolution: Resolution for the list of courses and certifications with respect to the cohorts and specializations is approved and recommended to Academic Council for approval.
----------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The courses and list of certifications that can be offered to the students of Y20 & Y21 with respect to the cohorts and specialization have been discussed with the committee members and received approval for the same. The academic progression of CSE students for the Academic Year: 2021-22 is discussed by projecting the detailed result analysis. The members congratulated for getting good results also suggested to continue the same for coming academic year.

Detailed discussion on Skill Development and Progression is given in Annexure-7.

AGENDA ITEM-8

Discussion on National Educational Policy implementation.	Resolution: The possible implementation of newly proposed National Education Policy related to the CSE department was stated to introduce from Y22 admitting batch. It is approved and recommended to Academic Council for approval.
-----------------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The possible implementation of the newly proposed National Education Policy related to the department was stated to introduce from Y22 admitting batch, discussed with the committee members, and received approval for the same.

National Education Policy implementation discussion is attached through **Annexure 8**.

AGENDA ITEM-9

Discuss and approve the work in lieu committee recommendation on Y13 admitted batch student.	Resolution: Work in Lieu committee recommendation on Ms Lavanya (13003015) application is approved and recommended to Academics Council for approval
----------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------

Based on the work in lieu committee recommendations, Ms V Lavanya (13003015) has been given work equivalence for the following subjects:

- 13CS402 Simulation and Modelling
- 13MP401 Mini Project

Detailed discussion on Work in Lieu Committee Recommendation is attached through Annexure-9.

AGENDA ITEM-10

Discuss and approve the minor degree programs offered by CSE for B.Tech 2022-23 admitted batch students.	Resolution: Minor degree programs proposed for B.Tech 2022-23 admitted batch students are approved and recommended to Academic Council for approval.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Annexure-1

DEPARTMENT ACADEMIC COMMITTEE MEETING MINUTES

Minutes of the DAC Meeting-Computer Science and Engineering Department held on 22-05-2022 (Saturday) from 3.30 P.M to 5:00 PM Online (Microsoft Teams).

The head of the department welcomed DAC members and started the meeting by highlighting the Vision & Mission statements of Department and University, also he discussed PEOs and PO statements of the programs.

The following Agenda Items are discussed, and the resolutions passed are marked against them:

1. To discussion about 2021-2022 Even Semester Course Closure Minutes
2. To discuss result analysis of 2021-2022 Even Semester courses.
3. To discuss about CO-PO Attainment of courses in 2021-2022 Even Semester
4. To discuss about Gap Analysis report on CO-PO Attainment and Teaching Pedagogy
5. To discuss the feedback received from stake holders on curriculum.
6. To discuss about proposed curriculum for B.Tech –CSE 2022-23 admitting batch
7. To discuss about new courses proposed for B.Tech –CSE 2022-23 admitting batch
8. To discuss MOOCs courses and Value-added courses proposed for the A.Y 2022-23.
9. To discuss about Proposal of SAC activities
10. To discuss about Proposal of Courses relating AICTE-SLA 'Parakh' Program

The following members were present:

1. Dr. K. Thirupathi Rao, Professor Chairman
2. Prof. Hari Kiran Vege, Professor Convenor
3. Dr. P. Sai Kiran, Professor Member
4. Dr. N. Srinivasu, Professor Member
5. Dr.K.Srinivas, Professor Member

70. Mrs. V. Anitha, Asst. Professor Member

71. Mr. P. Rathna Kumar, Asst. Professor Member

The following points were discussed and resolved:

Based on course closure minutes, the following points were discussed.

- For the Artificial Neural network course, COHORT 5A faculty and research group head recommended to put forward the book titles which are more relevant and recommended to be available in E- Library.
- AWS course feedback is analysed and Cohort-1, cloud computing research group faculty are recommended to plan additional training sessions to build more skill set.
- Crypt Analysis and Cyber Defence course feedback is analysed and discussed on lecture component. Due to operational constraints, discussion concluded for this course as lecture hours not changed.
- For Operating System Design course, feedback is analysed, and discussion ends with operating systems course available for Y21 batch.
- For Machine Learning course, Dr Sagar Imambi recommended to incorporate more case studies as part of skilling component. Concluded, Students get benefitted for the inclusion of certifications either in AWS or in Azure. Global challenges are suggested for only advance and peer learning students and not recommended for regular students. Y19 batch students are currently working on some of the case studies from machine learning related to tensor flow certification. Some of the certifications listed are Tensor flow certification, AI fundamentals certification, AWS and Azure.... etc.
- Mathematical programming-1 and Mathematical programming-2 courses feedback are analysed and proposed to give more exercise problems to the students for mathematical programming course for Y21 admitted batch students.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Based on Result analysis of 2021-2022 Even Semester courses the following points are discussed.

- The current pass percentage is more than 90% for maximum courses. The result is analysed based on the copy shared by the exam cell. Due to Phase 2 and Phase 3 exams few courses need to get updated results.
 - Placement training and Aptitude builder-II courses, student's issues are yet to solve so that pass percentage may increase for these courses.
 - Few courses like design patterns, Cloud system Infrastructure courses CCs are instructed to still work on giving more practice problems to ensure the pass percentage increase little bit more.
- CO-PO Attainment of 2021-2022 Even Semester courses and gap analysis report on CO-PO attainment and teaching pedagogy are discussed.
 - Stake holder feedback collected on 2022-23 Admitted batches proposed curriculum is discussed. Based on stake holders feedback the following new courses are proposed for 2022-23 admitted batch B.Tech CSE students.
 1. Dr. A. Srinath, Dean-Skill Development, recommend including an IoT workshop as an integral part of the curriculum. This hands-on experience will provide students with practical skills in IoT technology, enhancing their understanding and employability in the rapidly evolving field of Internet of Things.
 2. Dr.Md.Mujahid, Academic Peer, Recommend the introduction of a new course on "Introduction to Electronic Systems and IoT" at our institution. In today's rapidly evolving technological landscape, this course has the potential to provide students with invaluable knowledge and skills that are highly relevant to the modern world.
 3. The proposed structure for B.Tech CSE is discussed in detail. The category wise courses and credits are discussed and concluded as the curriculum offered with good number of courses to fulfil the local, regional, national and global needs. The curriculum structure for 2022-23 B.Tech- CSE is recommended for BOS approval.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

- Stake holder feedback on M.Tech-CSE and M.Tech-AI&DS structures are discussed. As the same Y21 structures approved for Y22 M.Tech admitted batch students without any revisions. The curriculum structures of M.Tech –CSE and M.Tech AI&DS programs are recommended for BOS approval.
- List of courses proposed for Open elective, management elective and foreign language electives under MOOCs mode are discussed and the same recommended for BOS approval.
- List of value-added courses proposed for 2022-23 admitted batch students are discussed and same recommended for BOS approval.
- Proposal on SAC activities are discussed and the same is forwarded for BOS approval.
- Proposal on the courses relating AICTE-SLA 'Parakh' Program is discussed and the same is forwarded to BOS approval.
- Detailed course closure minutes are given in annexure 1.
- Course wise result analysis on 2021-22 Even semester is attached in Annexure-2.
- CO-PO Attainment of courses offered in 2021-2022 Even Semester is attached through annexure 3.
- Gap analysis report on CO-PO attainment on the courses offered in 2021-22 Even Semester is attached through annexure 4.
- Detailed stakeholder feedback is attached through Annexure-5.
- Detailed structures proposed for B.Tech and M.Tech programs are attached through Annexure-6.
- List of MOOCs courses proposed for 2022-23 is attached through Annexure-7.
- List of value-added courses proposed for 2022-23 are attached through Annexure-8.
- Proposal on SAC activities given through Annexure-9. Proposal of Courses relating AICTE-SLA 'Parakh' Program is given in Annexure 10.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Annexure-2(a)

Course Code: 22EC1102 Course Name: Introduction to Electronic Systems & IoT

L-T-P-S: 1-0-2-0 Credits: 2

Prerequisite: Nil

Course outcome:

CO#	CO Description	PO/PSO	BTL
CO1	To acquaint the students about the fundamentals of Electronics	PO1	2
CO2	To understand Fundamentals of Internet of things	PO1, PO2	2
CO3	To demonstrate the Interfacing Arduino with LCD, LED, buzzer	PO3, PO2	3
CO4	To design and configure Arduino boards using sensors and actuators	PO2, PO3 PSO1	3
CO5	To build a small application using Arduino for real time problems in the world	PO3, PO5, PSO2	5

Syllabus:

Electronics components: Resistors, transistors, capacitors, diodes, inductors and transformers, relays, Ohm's and Watt's Law, Series and Parallel Circuit, Power Supply, Motors and Pulse with Modulation, Using light to control electricity, Photovoltaic Cells and Transducers Introduction to IOT: Understanding IoT fundamentals, IOT Architecture and protocols, Various Platforms for IoT, Real time Examples of IoT, Overview of IoT components and IoT Communication Technologies and Challenges in IOT, Applications of IOT in various domains. Arduino Simulation Environment: Arduino Uno Architecture, Setup the IDE, Writing Arduino Software, Arduino Libraries, Basics of Embedded C programming for Arduino, Interfacing LED, push button and buzzer with Arduino, Interfacing Arduino with LCD. Sensor & Actuators with Arduino: Overview of Sensors working, Analog and Digital Sensors, Interfacing of Temperature, Humidity, Motion, Light and Gas Sensor with Arduino, Interfacing of Actuators with Arduino, Interfacing of Relay Switch and Servo Motor with Arduino

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Course Code: 22SC1209

Course Name: IOT WORKSHOP

L-T-P-S: 0-0-4-0 Credits: 2

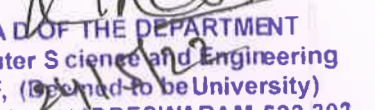

Prerequisite: Nil

Course outcome:

CO#	CO Description	PO/PSO	BTL
CO1	To make the student to understand about the programming fundamentals of Arduino software and tinker cad.	PO1	2
CO2	To demonstrate the Interfacing of Arduino UNO and ESP32 with LCD, LED, buzzer, and push button	PO3, PO1	2
CO3	To design and configure the sensors with Arduino UNO and ESP32 boards	PO3, PSO2	3
CO4	To design and configure the actuators with Arduino UNO and ESP32 boards and build Arduino and ESP based applications	PO3 PSO2	3

Syllabus:

Getting started with Arduino UNO and ESP32: Installing Software, Programming basics for Arduino and ESP32. Getting Started with Tinker cad: Introduction to Tinker cad, Tinker cad UI, analysis of sensors, wiring process, component naming, Electronics component properties, circuit designing, coding styles, simulation process, compilation errors correction. Arduino Uno and ESP32 Simulation Environment: Arduino Uno and ESP32 Architecture, Setup the IDE, Writing Arduino Uno and ESP32 Software programs, Arduino Uno and ESP32 Libraries, Interfacing LED with Arduino UNO and ESP32, Interfacing Multiple LED with Arduino UNO and ESP32, interfacing push button and buzzer with Arduino UNO and ESP32, Interfacing LCD with Arduino and ESP32. Interfacing sensors with Arduino UNO and ESP32: Overview of Sensors working , Programming for Serial Monitor, interfacing of Light Sensor(LDR), interfacing of Temperature & Humidity sensor(DHT11 Sensor), Interfacing of Motion Sensor(PIR Sensor), interfacing of Gas Sensor(MQ12 Sensor) , interfacing of Distance Measurement

Annexure-2(b)

Report- Analysis of Feedback on curriculum – received from the stake holders prior to the commencement of the Academic Year 2022-23

Feedback from different stake holders has been collected in respect of the curriculum offered for the academic year 2022-23

S. No.	Type of Stake holder	Number of feedbacks
1	Students	901
2	Parents	40
3	Alumni	20
4	Faculty	283
5	Academic peers	18
6	Industry persons	15
Total		1227

Stakeholder Category	Stakeholder Feedback / Recommendation	Action taken in DAC (22/05/2022)	Action Taken in BOS (24/05/2022)
Academic Peer	Dr.Md.Mujahid, Recommend the introduction of a new course on "Introduction to Electronic Systems and IoT" at our institution. In today's rapidly evolving technological landscape, this course has the potential to provide students with invaluable knowledge and skills that are highly relevant to the modern world.	It is resolved to consider and recommend the introduction of the new course "Introduction to Electronic Systems and IoT" to BOS for 2022-23 admitted batch CSE students.	It is resolved to approve the introduction of the new course "Introduction to Electronic Systems and IoT" for 2022-23 admitted batch CSE students.

Stakeholder Category	Stakeholder Feedback / Recommendation	Action taken in DAC (22/05/2022)	Action Taken in BOS (24/05/2022)
Faculty	Dr. A. Srinath, Dean-Skill Development, recommend including an IoT workshop as an integral part of the curriculum. This hands-on experience will provide students with practical skills in IoT technology, enhancing their understanding and employability in the rapidly evolving field of Internet of Things.	It is resolved to consider and recommend the introduction of the new course "IoT Workshop" to BOS for 2022-23 admitted batch CSE students.	The BoS recognizes the importance of preparing students for the rapidly evolving technology landscape and acknowledges that this workshop will enhance their practical knowledge and skills in the field of IoT. It is resolved to approve the introduction of the new course "IoT Workshop" for 2022-23 admitted batch CSE students.

Annexure – 8: National Educational Policy Implementation

The entry and exit options for students, who enter the undergraduate program, are as follows:

I Year

- **Entry1:** The entry requirement for Level 5 is Secondary School Leaving Certificate obtained after the successful completion of Grade 12. A program of study leading to entry into the first year of the bachelor's degree is open to those who have met the entrance requirements, including specified levels of attainment at the secondary level of education specified in the program admission regulations. Admission to the bachelor's degree program of study is based on the evaluation of documentary evidence (including the academic record) of the applicant's ability to undertake and complete a bachelor's degree program.
- **Exit1:** A certificate will be awarded when a student exits at the end of year1 (Level5). The first year of the undergraduate program builds on this secondary education and requires 36-40 credits during the first year of the undergraduate program for qualifying for an undergraduate certificate.

II Year

- **Entry2:** The entry requirement for Level6 is a certificate obtained after completing the first year (two semesters) of the undergraduate program. A program of study leading to these second year of the bachelor's degree is open to those who have met the entrance requirements, including specified levels of attainment, in the program admission regulations. Admission to a program of study is based on the evaluation of documentary evidence (including the academic record) of the applicant's ability to undertake and complete a bachelor's degree program.
- **Exit 2:** At the end of the 2nd year, if a student exits, a diploma shall be awarded (Level 6). A diploma requires 72-80 credits from levels 5 to 6, with 36-40 credits at level 6.

III Year

- **Entry3:** The entry requirement for Level 7 is a diploma obtained after completing two years (four semesters) of the undergraduate program. A program of study leading to the bachelor's degree is open to those who have met the entrance requirements, including specified levels of attainment, in the program admission regulations. Admission to a program of study is

based on the evaluation of documentary evidence (including the academic record) of the applicant's ability to undertake and complete a bachelor's degree program.

- Exit 3: On successful completion of three years, there levant degree shall be awarded (Level7). A bachelor's degree requires 108-120 credits from levels 5 to 7, with 36-40 credits at level5, 36-40 credits at level6, and 36-40 credits at level7.

IV Year

- Entry4. An individual seeking admission to a bachelor's degree (Honors/Research) (Level8) in a specified field of learning would normally have completed all requirements of three - year bachelor's degree (Level7). After completing the requirements of a three-year bachelor's degree, candidates who meet a minimum CGPA of 7.5 shall be allowed to continue studies in the fourth year of the undergraduate program to pursue and complete the bachelor's degree with Research.
- Exit 4: On the successful completion of the fourth year, a student shall be awarded a degree (Honors/Research). A bachelor's degree (Honors/Research) requires a total of 144-160 credits from levels 5to8, with 36-40 credits at level5, 36-40 credits at level6, and 36-40 credits at level7, and 36-40 credits at level 8.

Annexure 9: Work in Lieu Committee Recommendation

Based on the work in lieu committee recommendations, Ms V Lavanya (13003015) has been given work equivalence for the following subjects:

13CS402 Simulation and Modelling

13MP401 Mini Project

SIMULATION AND MODELING (13CS402) - WORK EQUIVALENCE REPORT

This is to adhere that the student bearing id number 13003015, a student of CSE department has continued her work at 7Seas Entertainment Ltd, Hyderabad as a Unity Game Developer in the Gaming domain. Her complete work in the duration is observed as Equivalence to our KL university framed syllabi. The said student has covered the course syllabi with course id: **13CS402** with title **Simulation and Modelling**.

She has entitled covering the contents of all Course outcomes during her project activity. She has hands on handling multiple projects based on simulation and Modeling. Her keen interest in identifying the course syllabi helped her innovating and producing more attractive successful projects.

The student has aptly used discrete event simulation principles and various mathematical models to bring out her projects successful. She has immensely used available statistical and queuing models to evaluate the results. On the other ways of her implementation, it is clearly observed that the course curriculum of KL-CSE is matching her work. The result analysis is made of analyzing available input modelling techniques, verification and validation approaches. She built the complete application using **UNITY Game Engine** software as a tool to complete the product.

MINI PROJECT-(13MP401) - WORK EQUIVALENCE REPORT

Lavanya Vallabhapurapu with student id: **13003015** has successfully carried out her Mini Project "TILT IT" by her own initiatives and perspectives which is duly available from Google Play store. During her work, she has collected various requirements, created

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

user stories, generated use cases and all other useful stuff for her project activity.

Her keen interest enabled her to implement the code with proper planning using **UNITY - 3D Game Engine** tool using the **IDE - Visual Studio**. She has developed a 2D Hyper Casual Game in which the player is moved using the mobile in build Gyroscope. She used the concepts from Vector Physics to implement the code and simulation approaches.

Her credentials are proven and can be found at Google play store at https://play.google.com/store/apps/details?id=com.la1ya.tiltit&hl=en_US&gl=US.

She has conducted verification and validation testing on the said application.

Annexure - 11:

Discussion on Honors Degree with Specialization

All the members in the Board of Studies agreed to recommend the below attached degrees to be offered to students who take up 20 additional credits from courses that are part of Professional Core, Professional Electives, skill development and Project with a minimum of 8.5 CGPA and no backlogs in any semester.

B.Tech. (Hons) CSE with specialization in Artificial Intelligence & Intelligent Process Automation

B.Tech. (Hons) CSE with specialization in Data Science & Big Data Analytics

B.Tech. (Hons) CSE with specialization in Cloud & Edge Computing

B.Tech. (Hons) CSE with specialization in Cyber Security & Block Chain Technology

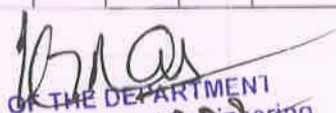

B.Tech. (Hons) CSE with specialization in Software Modelling & DevOps

B.Tech. (Hons) CSE with specialization in Game Development & UX Design

B.Tech. (Hons) CSE with specialization in Cyber Physical Systems & Internet of Things

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Annexure 12 (a):

Proposal of SAC activities

SAC activities Proposed for AY 2022-23		
S. No	Activity	Outcome
1	Project Expo	To Provides opportunity for the students to demonstrate their learning experience
2	Project Based Learning	To Improve problem solving
3	Skill Based Learning	To Develop Acquisition or learning of skills
4	Hackathon (SDP-I / SDP-II)	To Develop new prototypes and volume of ideas
5	Workshops	To Provide training to participants to improve the skills
6	Conferences	To Share new ideas and development experiences in various fields
7	National Technical Fest (#include)	To Develop various skills
8	Gender Sensitization	To Understand the consequences of different behavior for girl/women, boys/men.
9	Social Internship	To Improve skills in communication, teamwork and problem-solving
10	NSS & Sports	To Acquire leadership qualities and democratic attitude

Annexure 12 (b): Proposal of Courses relating AICTE-SLA 'Parakh' Program

AICTE-SLA 'Parakh' Courses proposed for Y22 Admitted Batch					
S. No	COURSE NAME	PLAT FORM	FOCUS ON	CATEGORY	IMPLEMENTATION
1	Internet Of Things	AICTE SLA	Emerging Technology	Employability	1. Acquires Logins from Skill development division 2. Sensitize the students on platform 3. set the benchmarks on applicable courses
2	Data Warehousing and Mining	AICTE SLA	Emerging Technology	Employability	
3	Cryptography And Network Security	AICTE SLA	Emerging Technology	Employability	
4	Natural Language Processing	AICTE SLA	Emerging Technology	Employability	
5	Automate Theory and Formal Languages	AICTE SLA	Core concepts	Employability	
6	Design and analysis of algorithms	AICTE SLA	Core concepts	Employability	
7	Machine Learning	AICTE SLA	Emerging Technology	Employability	
8	Compiler Design	AICTE SLA	Emerging Technology	Employability	
9	Software Engineering	AICTE SLA	Core concepts	Employability	
10	Operating System	AICTE SLA	Core concepts	Employability	
11	Computer Organization and Architecture	AICTE SLA	Core concepts	Employability	
12	Data base Management systems	AICTE SLA	Core concepts	Employability
