## INDUSTRIAL VISIT REPORT

### KCP sugars and industries

Krishna District, Andhra Pradesh, India

<https://www.kcpsugar.com/>

An Industrial visit to **KCP sugars and industries** -Vuyyuru bypass road, Vuyyuru, Andhra Pradesh, was organized by the Biotechnology Department of KLEF on Saturday, 30<sup>th</sup> December 2018. Four faculty also accompanied the students for that visit.

First, we have visited the KCP SUGAR INDUSTRIES, there we all came to know that K.C.P Sugar and Industries Corporation Ltd is one among the leading sugar manufacturing companies in India. Its allied business consists of manufacturing and marketing of Rectified Spirit, Extra Neutral Alcohol, Ethanol, Incidental Cogeneration of Power, Organic Manure, Mycorrhiza Vam, Calcium Lactate and CO<sub>2</sub>. Company has two sugar factories located in Krishna District Andhra Pradesh having an aggregate crushing capacity of 11,500 tons per day. Its segments include Sugar, Chemicals, Power & Fuel, Engineering and Others. The Company's geographical segments include Sales within India and Sales outside India.

Scientists are handling the sugar making machines which are bigger than we expected and are handled by only expert technicians because any mishandling may cause the damage to the whole machine. We have observed the technique behind the sugar making and even more.
