DUSTBINS DISTRIBUTION

After Swatch Bharath few other groups and our program officer along with the village secretary went across the village and distributed dustbins. If wet and dry dust is dumped in the same bin it results in bad smell and generates bacteria which leads to many diseases. So we distributed two dustbins for each house. Red for dry dust and yellow for wet dust.

BLOOD GROUPING PROGRAM

From 01:00 clock we started the blood group identification program we invited two Bio Technology (BT) students to do the job. The [grouping](#) is very important when it comes to having a blood transfusion. If blood is given to a patient that has a blood type that is incompatible with the blood type of the blood that the patient receives, it can cause

intravenous clumping in the patient's blood which can be fatal. The patient's body can start producing antibodies that attack the antigens on the blood cells in the blood that was given to the patient. Many villagers came to know their blood group and we had given an identity card so that they will never forget.

PAINTING BLACKBOARDS

Many of the Black Boards of the Zilla Parishad High School(ZPH) are not in good condition, so we painted boards so that they can understand the written contents by their teachers well. Our volunteers painted the notice board of school.

AWARENESS ABOUT GOVERNMENT SCHEMES

No doubt that there are wonderful policies/schemes of the Government of India; all built for progress of the poor. Most unfortunately these do not reach the poor but are siphoned away by miscreants who are middlemen and corrupt officials. It is a pity that these classes of people of our country are not served well at all despite the resolve of the Government towards these people. So our volunteers educated, motivated and encouraged villagers to register for the schemes and get benefitted. The main reason of this is all the government schemes should reach to needy and poor families. A group of volunteers went every home in the selected street and discussed with them and suggested some schemes which make their life more beautiful. The schemes we informed are Pradhan Mantri Kisan Samman Nidhi Yojana, Ayushman Bharat, Pradhan mantri shram mandhan yojna (for unorganised workers), Pradhan mantri mudra yojana etc...

VOTER AWARENESS

KL
UNIVERSITY

CSE
COMPUTER SCIENCE & ENGINEERING

As a part of our event we the NSS volunteers stepped forward to spread the word about the importance of voting and the right to vote. We divided into groups which consists 3 members and spread across village. We motivated the villagers of chirravuru to vote and cast their vote righteously.

CAREER GUIDANCE FOR 10th CLASS STUDENTS

We conducted a career guidance program for students, as a matter of fact, career guidance is a very important aspect of your life. In fact, it can make or break your career. And career guidance is very essential for success. If you want to see your career moving in a right direction then career guidance is of utmost importance. Everyone wants to be successful but they do not get the right guidance to make right decision at right time. If you have a pre-planned guidance for your career then it can make a lot of difference. Today, awareness about career guidance is still very low among younger generation. The culture of going to a counsellor is so important in our country. So we decided to give right guidance to the upcoming citizens

Career guidance for 10th class students

As our adopted village contains only a ZPH school we chosen 10th class students as their entire future is lying in front of them. To choose right path we need right guidance also. The best part of career guidance is that it is very objective as well as strategic. You could get

a clear picture what your goal should be or must be. So we have done a lot of ground work to convey our content to them effectively. We wished all the students to do well in their SSC examinations and score good grade points.

INTERACTIVE SESSION WITH STUDENTS

We asked children about their point of interest and described them in which path to go so that they can achieve their dreams. We have made a good interactive session with all students.

Students asking questions and our volunteers clarifying the doubts

CONDUCTING GAMES

In the following session our unit volunteers conducted games for students of Zilla Parishad High school like lemon and spoon, drawing, frog jump for kids, skipping, running race competitions and given prizes for the winners.

Day – 3 (24th February 2019)

On the third day of camp also we have continued the blood group identification program. We have changed the place to the library centre of the village. Where there is more people to utilize the opportunity. And also the awareness program about government schemes also continued door to door.

DIGITAL FINANTIAL LITERACY

Digital literacy is the knowledge, skills, and behaviours used in a broad range of digital devices such as smart phones, tablets, laptops and desktop PCs, all of which are seen as a network rather than computing devices. Our volunteers educated the localities about Digital Financial literacy.

GIS MAPPING OF VILLAGE

We planned an event of GIS mapping. A geographic information system (GIS) is a system designed to capture, store, manipulate, analyze, manage, and present all types of geographical data. The key word to this technology is Geography – this means that some portion of the data is spatial. In other words, data that is in some way referenced to locations on the earth. We have mapped the main centers and places like temples, ponds, schools, anganwadi centers, water plants, ration depots, milk booths, churches and shops of the village. All the locations were uploaded in street maps. For this our students used MAPS.ME app. Due to this program the information of the important places of that village became available. so those who visit the place for the first time can easily identify the addresses in the village. This information is also helpful for surveys etc...

SAVE WATER AWARENESS PROGRAM

Water being a scarce resource and a primary one should not get wasted. Lot of people has shortage of water supply. As a part of this our volunteers have taken an initiative to create awareness in Chirravuru village by conducting a Rally and motivating households. Slogans like "Save Water, Save Lives" were given by the volunteers.

AT NIGHT

We have planned a walkathon on the last day early morning. So the members who are staying went door to door and welcomed villagers to participate in the program and make it success.

We mentioned all the benefits of morning walk like lowers the risk of diabetes, strengthens the heart, aids weight loss, prevents arthritis and osteoporosis, prevent heart strokes, controls cholesterol, gives protection against atherosclerosis, relieves depression, enhances brain function, boosts the immune system, reduces fatigue, improves lung capacity, keeps stress away, makes skin glow, energizes the body and many more.

COMPUTER USAGE AND IMPORTANCE

In the afternoon session few volunteers went to school and given presentation regarding computer usage and its importance. Computers are used in so many fields in our daily life. From Engineers to Doctors, Students, Teachers, Government Organization they all use computers to perform specific tasks, for entertainment or just to finish office work. Computers have made our life easier. With greater precision and accuracy and less time taking computers can do alot in short time while that task can take alot of time while doing manually. Computers have taken industries and businesses to a whole new level. They are used at Home for work and entertainment purposes, at Office, In hospitals, in government organizations. we discussedmany uses of computers in various fields.

At 01:00 clock our college faculty visited the village, interacted with villagers and volunteers and asked what was their experience.
