NATIONAL CADET CORPS REPORT ON TREE PLANTATION EVENT

Protect And Grow Your Money Growing Trees On Your Land Or Ours Growing trees has never made more sense than it does today; rising inflation, a looming crash of the stock market and the uncontrolled printing of paper money, are all reasons to grow trees. Trees are considered a hard asset, historically outperforming inflation, providing a stable long-term investment alternative to the cyclical nature of retail investments such as real estate and the stock market. Depending on market conditions, an investment in trees can double or triple in less than a decade.

NCC cadets from 22(A) BN, Tenali actively took part in the tree plantation drive in the near by village with great enthusiasm and spiritual respect towards nature. The cadets planted many saplings in and around the village.

They actively interacted with the villagers about greenery and benefits of having plants around us. The cadets successfully planted nearly more than 30+ plants.
