Self-defense is a countermeasure that involves defending the health and well-being of oneself from harm. Self-defense refers to your right to protect yourself from suffering force or violence through the use of a sufficient level of counteracting force or violence. Self-defense is very much needed for girls in this present situation; however, girls who learn self-defense find themselves more confident.

In the self-defense class conducted by the NCC unit, KLEF, cadets observed and learnt the techniques taught. Learning such tactful techniques will always help women in their difficult situations. Self-defense can boost the confidence of women and it helps them to protect themselves and their family.
