Rain Water Harvesting Campaign 10(A) Girls Bn. NCC

Rainwater harvesting is the collection and storage of rain, rather than allowing it to run off. Rainwater is collected from a roof-like surface and redirected to a tank, cistern, deep pit, aquifer, or a reservoir with percolation. The water can be utilized to recharge the ground level water and improve its quality. This water can also be used for household purposes or even for drinking when properly treated.

Details of the Event:

Name of the Event : Rain Water Harvesting Campaign

Date of the Event : 03-08-2021

Venue : Gundimeda Village

No of students Participated: 20

Details of Beneficiaries : Created awareness among 200 farmers about different ways of harvesting rain water and importance of rainwater harvesting.

NCC 10(A) girls Battalion , Guntur organised a campaign on 3rd August 2021, Tuesday in Gundimeda village to raise awareness about benefits and importance of harvesting rainwater. The battalion was accompanied by 10A Girls Battalion. NCC. officer: Dr. A. Pavani and coordinator, Satyanarayana. Gundimeda is a large village located in Tadepalle Mandal of Guntur district, Andhra Pradesh. The Battalion marched in the village on the occasion. Cadets were divided into groups and visited different houses in the village. They have spoken to villagers raising awareness about different ways and importance of rainwater harvesting.

Cadets marching in the village along with NCC officer on 03-08-2021

Cadets, NCC officers, volunteer and a villager at a soaking pit on 03-08-2021

The villagers were also interested in harvesting rainwater and some of the villagers were already having percolation pits in their homes and farms. Garlapati Venkata Prasad a villager having soaking pits in his home and farm said that they constructed a percolation pit in 2008 and the pit has been absorbing all the rain water and the water used for domestic purpose. The pit 12 feet deep and four feet wide has increased ground water level from 40 feet from the surface to 24 feet from the surface. Anumolu Venkata Rao is another villager having percolation pits at his home and farm. All the cadets appreciated the villagers having percolation pits with NCC claps encouraging everyone to construct soaking pits at their homes and farms.
