Tree-planting is the process of transplanting tree seedlings, generally for forestry, land reclamation, or land scaping purpose. It differs from the transplantation of larger trees in Arboriculture, and from the lower cost but slower and less reliable distribution of tree seeds. Trees contribute to their environment over long periods of time by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil, and supporting wildlife. During the process of photosynthesis, trees take in carbon dioxide and produce the oxygen we breathe.

In silvi culture the activity is known as reforestation, or afforestation, depending on whether the area being planted has or has not recently been forested. It involves planting seedlings over an area of land where the forest has been harvested or damaged by fire, diseases or human activity. Tree planting is carried out in many different parts of the world, and strategies may differ widely across nations and regions and among individual reforestation companies. Tree planting is grounded in forest science, and if performed properly can result in the successful regeneration of a deforested area.

Reforestation is the commercial logging industry's answer to the large-scale destruction of old growth forests, but a planted forest rarely replicates the biodiversity and complexity of a natural forest because trees remove carbon dioxide from the air as they grow, tree planting can be used as a geo-engineering technique to remove CO₂ from the atmosphere.

A Great Step Towards Afforestation An Initiative Was Taken By KLEF NCC By Planting Trees In The

Near By Government High School On September 1st2021.The Program Was Led By Y19 And Y20 Cadets Under The Supervision Of

NCC officer 22(A) Battalion Lt.Mounika participating in the tree plantation event to showcase the students tree plantation importance on 01/09/2021

A Great Step Towards Afforestation An Initiative Was Taken By KLEF NCC By Planting Trees In The Near By Government High School On September 1st2021.The Program Was Led By Y19 And Y20 Cadets Under The Supervision Of Lt VMounika Madam Making The Program Successful. Nearly 80 Plants Were Planted By The Cadets And Cadets Took a Responsibility To Inspire The Students To Plant More And More Trees And Also Saving Them From Being Cut.
