#### **Career Guidance for 10<sup>th</sup> Class Students**

We conducted a career guidance program for 10<sup>th</sup> class students, as a matter of fact; career guidance is a very important aspect of your life. In fact, it can make or break your career. And career guidance is very essential for success. If you want to see your career moving in the right direction, then career guidance is of at most importance. Everyone wants to be successful, but they do not get the right guidance to make the right decision at the right time.

If you have pre-planned guidance for your career, then it can make a lot of difference. Today, awareness about career guidance is still very low among younger generation. The culture of going to a counsellor is so important in our country. So we decided to give the right guidance to the upcoming citizens. As our adopted village contains only a ZPH school we chosen 10<sup>th</sup> class students as their entire future is lying in front of them. To choose right path we need right guidance also. The best part of career guidance is that it is very objective as well as strategic.

NSS Volunteers Awareness on Career Guidance to ZP High 10<sup>th</sup> Class Students on 13-03-2020

You could get a clear picture what your goal should be or must be. So we have done a lot of ground work to convey our content to them effectively. We wished all the students to do well in their SSC examinations and score good grade points.

### **GIS Mapping of Village**

We planned an event of GIS mapping. A geographic information system (GIS) is a system designed to capture, store, manipulate, analyze, manage, and present all types of geographical data. The key word to this technology is **Geography** – this means that some portion of the data is spatial. In other words data that is in some way referenced to locations on the earth. We have mapped the main centres and places like temples, ponds, schools, Anganwadi centres, water plants, ration depots, milk booths, churches and shops of the village. All the locations were uploaded in street maps. For this our students used MAPS.ME app. Due to this program the information of the important places of that village became available. So those who visit the place for first time can easily identify the addresses in the village. This information is also helpful for surveys etc...

**Day – 4 (14<sup>th</sup> March 2020)**

**Grama Sabha Awareness**

The Grama Sabha is the grass root level democratic institution in each Village Panchayat. A vibrant Grama Sabha is essential for the effective functioning of Village Panchayats by promoting transparency and accountability in administration, enhancing public participation in the planning and implementation of schemes and in the choice of beneficiaries, and paving the way for social audit. The Government have ordered the conduct of Grama Sabha meetings a minimum of four times a year. So, we insisted villagers make use of it and get their requirements done.

**Water Conservation Awareness**

Water, being a scarce resource and a primary one should not get wasted. Lot of people has shortage of water supply. As a part of this our volunteers have taken an initiative to create awareness in chirravuru village by conducting a door-to-door campaign and motivating households. Slogans like “Save Water, Save Lives” were given by the volunteers.

Awareness on Conservation of Water to Villagers

## **Swachh Bharat**

Afternoon of the second day About 20 volunteers divided into subgroups and went into the streets, lanes and by lanes of the village. Few groups organized a cleanliness drive Swachh Bharat by selecting a street nearby the panchayat office. Volunteers cleaned the village roads and removed dust heaps.

**Day – 5 (15<sup>th</sup> March 2020)**

### **Blood Grouping**

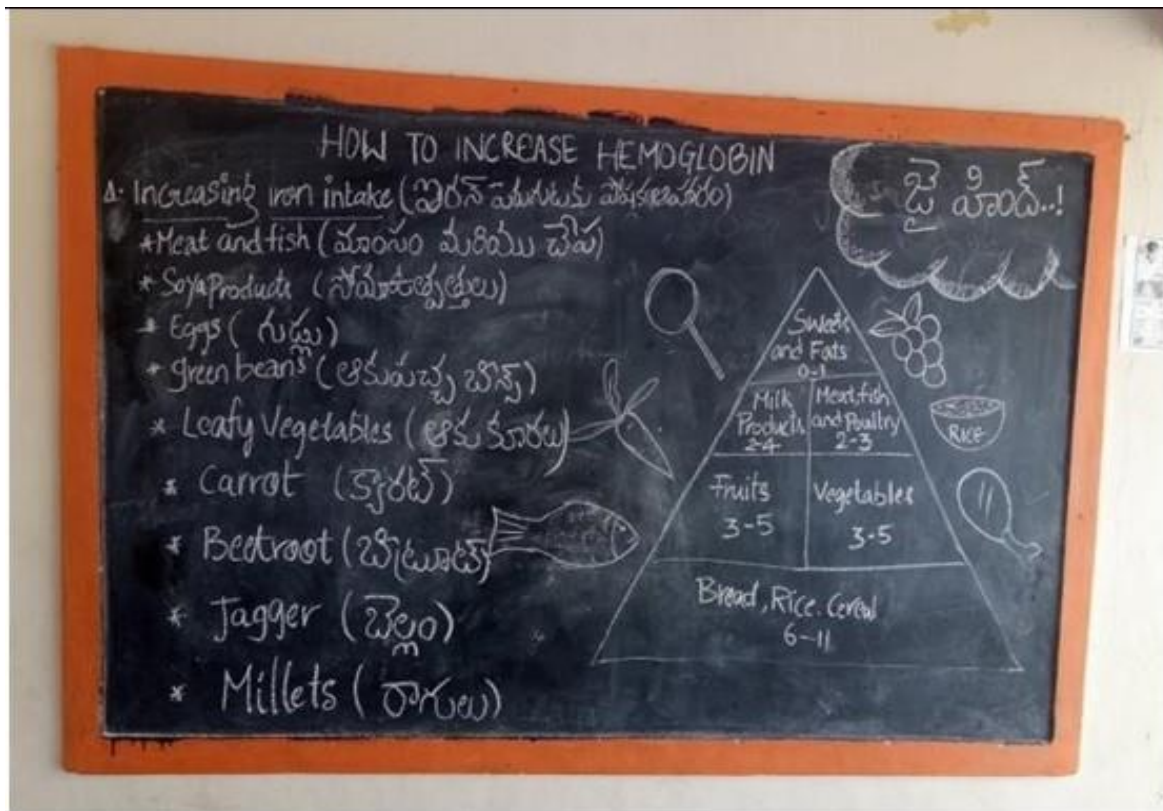

From 11:00 clock we started the blood group identification program we invited three Biotechnology (BT) NSS Volunteers to do the job. The grouping is very important when it comes to having a blood transfusion. If blood is given to a patient that has a blood type that is incompatible with the blood type of the blood that the patient receives, it can cause intravenous clumping in the patient's blood which can be fatal. The patient's body can start producing antibodies that attack the antigens on the blood cells in the blood that was given to the patient. We organized blood grouping in the ZPH School for students and we had given an identity card so that they will never forget.

Blood Grouping and Hemoglobin Test to Villagers

## Hemoglobin Test

A hemoglobin test measures the amount of hemoglobin in your blood. Hemoglobin is a protein in your red blood cells that carries oxygen to your body's organs and tissues and transports carbon dioxide from your organs and tissues back to your lungs. If a hemoglobin test reveals that your hemoglobin level is lower than normal, it means you have a low red blood cell count (anemia). Anemia can have many different causes, including vitamin deficiencies, bleeding, and chronic diseases. If a hemoglobin test shows a higher-than-normal level, there are several potential causes of the blood disorder polycythemia vera, living at a high altitude, smoking and dehydration.

The main aim of this awareness program is to let all know about first aid treatment that can be given to someone who suddenly fell ill or injured. We had given the basic first aid knowledge and skills to the children.

### **World Sleep Day**

World sleep day is an annual, global call to spread awareness and explain the importance of healthy sleep. The aim of this day is to bring attention to the many burdens of sleepy problems. Sleep is one of the most important activities of our life like eating healthy and exercising daily. But with change of lifestyle, work pressures and hectic schedule people are sleeping for lesser hours than they did in the past. Sleep is vital to good health and a decent sleep rest can make your entire day very positive.

We asked children about their point of interest and described them in which path to go so that they can achieve their dreams. We have made a good interactive session with all students.
