A Report on Swachh Bharat @ Home **Conducted on 26-08-2020**

KL Deemed to be University (Koneru Lakshmaiah Education Foundation) Engineering & Non-Engineering National Service Scheme (NSS) Volunteers to keep their surroundings neat and clean to maintain a healthy Hygiene on “**Swachh Bharat @ Home**” **26-08-2020**. In the present global pandemic crisis we need to keep our houses and surroundings clean.

All of us live in a neighborhood or surrounding. We must keep our surroundings neat and clean. This will help us to live healthy and better lives. Keeping our surroundings clean will only help in the betterment of society. Every household generates waste or garbage. Now, waste or garbage should not be thrown anywhere, and everywhere, but only in trash bins. Throwing garbage all over the place will only dirty our surroundings and pollutes the environment.

Controlling the use of plastic bags will also help to keep our surroundings clean. One should use recycled and eco-friendly products such as paper or jute bags instead of plastic bags. Throwing of plastic bags by the roadside only makes our surroundings dirty and unhygienic. Plastic bags are not soluble so they clog drains and cause water logging.

Do not litter on the road or in your neighborhood. Littering cause's land, air and water pollution. Try planting trees and plants that will beautify your surroundings as well as keep us healthy.

Date of the Event: 26-08-2020

Name of the Event: Swachh Bharat @ Home

Venue: Respective Houses

No. of Participants: Students-100, Faculty-05

Greener surroundings look beautiful and also reduce pollution to keep us fit and healthy. Dirtying our surroundings will only cause harm to us. So, keep the surroundings clean and live happy and healthy lives. Refuse single-use items (especially plastic). Straws, to-go cups, disposable razors, and plastic grocery bags are some ubiquitous examples of single-use products in our economy. Finding a reusable option for these items we use once and toss is a simple way to make a big difference. **Reduce use of chemicals & properly dispose of waste.** Many industries dispose of their oil, paint, ammonia, and other chemicals openly.

This is hazardous to water and air as these chemicals are soaked into the groundwater. When all of these chemicals combine, it's no wonder cancer rates have skyrocketed. Support regulations and incentives for companies to keep our environment clean. Agriculture is also a known polluter when it comes to chemical runoff. And when it comes to your own back yard, avoid over-fertilizing to make sure you're not contributing to algae blooms from runoff. Choose natural cleaning methods, environmentally-safer paints, and recycled or nontoxic home improvement materials to keep your indoor air cleaner (and naturally fresh) and your waste less harmful.

● LIST OF STUDENTS:

S.N	Name of the Volunteer	Univ ID	Dept
1	B Ravi Prabhat	190070140	Mech
