A Report on “Social Survey” **Conducted On 27-04-2022 at Pedapalem**

Objective:

The objective of the "Social Survey" conducted on 27-04-2022 at Pedapalem was to gather comprehensive data on social issues, community needs, and demographic information to inform future development initiatives and community outreach programs effectively. The survey aimed to understand the current challenges faced by the community and identify areas where NSS efforts could make a meaningful impact.

Description:

The NSS team conducted a comprehensive survey in the village, gathering data from approximately 100-120 households. The villagers warmly welcomed our initiative, and through structured data collection using a Google form, we identified key issues such as medical emergencies, road conditions, and drainage problems. This effort aimed to understand community needs and reassure villagers that NSS is committed to addressing their concerns and improving village infrastructure.

Outcome:

As a result of the survey, the NSS team identified critical issues like medical emergencies, road conditions, and drainage problems affecting the village. This data will guide future initiatives to address these challenges and improve community welfare.

Impact on Society:

The social survey conducted by the NSS team in Pedapalem village provided valuable insights into community needs, fostering hope, and laying the groundwork for targeted interventions to improve infrastructure and healthcare access. This initiative demonstrated proactive engagement and commitment to addressing local challenges, enhancing community trust and collaboration.
