A Report on Survey on Seasonal Diseases Conducted on 16-09-2021 at Prathuru

Objective:

The objective of the survey on seasonal diseases conducted on 16-09-2021 at Prathuru was to assess the prevalence and impact of diseases that typically occur during specific seasons. This initiative aimed to gather data on common illnesses, identify health risks, and facilitate preventive measures to safeguard the community's well-being. The survey likely focused on understanding disease patterns, promoting health education, and advocating for timely medical interventions to mitigate health risks effectively.

Description:

In alignment with this initiative, Mr. P. Srikanth Reddy, Programme Coordinator of KLEF NSS Cell, and Programme Officer of Unit-02, Mr. K. Prasanna Kumar, contacted village panchayat officials to outline the program's objectives. Departing from our university at 10:30 AM and arriving by 11:00 AM, we divided into groups and engaged with villagers, listening to their concerns during the rainy season. As part of the program, we offered practical solutions such as drinking hot water, consuming protein-rich foods, bathing twice daily, and maintaining clean surroundings. Responding to a community request, we conveyed the need for bleaching powder spraying to university officials, who responded positively. Dr. K. S. R. Prasad, Dean of Student Affairs, presided over the event, with leadership from Mr. P. Srikanth Reddy, Mr. K. Prasanna Kumar, and Mr. P.Suresh, Coordinator, NSS.

Outcome:

The outcome of the event conducted on 16-09-2021 at Prathuru focused on several impactful results:

1. **Community Engagement and Awareness:** The interaction with villagers enabled understanding of their seasonal health challenges, fostering awareness about preventive measures such as drinking hot water, consuming protein-rich foods, and maintaining hygiene.
2. **Effective Problem Solving:** Responding to community concerns, the initiative facilitated prompt action by conveying the need for bleaching powder spraying to university officials, who responded positively. This demonstrated proactive problem-solving and collaboration between the community and higher authorities.

Overall, the event not only addressed immediate health issues but also strengthened community ties and showcased the effectiveness of coordinated efforts in promoting health and hygiene in Prathuru village.

Impact on Society:

The event at Prathuru on 16-09-2021 positively impacted society by raising health awareness, promoting proactive health practices, and fostering community collaboration for improved hygiene and well-being. It empowered residents with practical solutions and facilitated responsive actions from higher authorities, enhancing local health outcomes and community resilience.
