Report on Blood Grouping Tests

Details of the Event:

Name of the Event :Blood grouping tests for Health

Date of the Event :22-09-2022

Venue :Gundimeda

No. of Participants :Students:90 Faculty, Staff:03

Objective

The objective of conducting blood grouping tests for health is to raise awareness and provide individuals with crucial information about their blood type, enabling informed medical decisions and enhancing preparedness for emergencies. By offering this service, we aim to facilitate safer blood transfusions, medical treatments, and surgeries, thereby improving patient outcomes and reducing the risk of complications. Additionally, promoting health education about the significance of knowing one's blood group fosters a culture of proactive healthcare management and empowers individuals to take charge of their well-being.

Description

On 22-09-2022, the "Blood Grouping" program was held in Gundimeda village, organized by the KLEF Pharmacy NSS Unit-06 under the guidance of Program Officer Dr. R. Supriya. NSS volunteers, supervised by Dr. R. Supriya and coordinators Mr. G. Chandra Sekhar and Mr. P. Suresh, arrived at the village at 9:30 am. Divided into groups, volunteers conducted door-to-door visits, stressing the importance of knowing one's blood group for medical purposes. They administered blood grouping tests for around 263 individuals and provided written blood group information. The program saw the participation of village ANM B. Latha, asha workers M. Vijaya and N. Aruna, as well as K L University NSS volunteers and faculty members. The efforts of the volunteers and faculty members were commended by Dr. G. Chakravarthi, Principal of the College of Pharmacy, Mr. P. Sai Vijay from the Student Activity Centre (SAC), Dr. Ch. Hanumanth Rao (Dean Student Affairs), and Mr. P. Srikanth Reddy, Coordinator of the KLEF NSS Cell.

Outcome

The blood grouping tests conducted for health purposes yielded significant outcomes, contributing to enhanced healthcare preparedness and patient safety. By providing individuals with essential information about their blood type, the initiative empowered participants to make informed decisions regarding medical treatments and interventions. Moreover, the program facilitated safer blood transfusions and surgeries by ensuring compatibility between donors and recipients. Additionally, raising awareness about the importance of knowing one's blood group fostered a proactive approach to healthcare management among the community. The successful execution of the event not only improved health outcomes but also underscored the importance of preventive healthcare measures in promoting overall well-being.

Impact on society

The blood grouping tests had a significant impact on society, equipping individuals with essential health information for informed medical decisions. By promoting awareness about blood types, the initiative facilitated safer transfusions and medical treatments, enhancing overall healthcare preparedness within the community. This proactive approach to healthcare management fosters a culture of well-being and underscores the importance of preventive measures in promoting public health.

Blood tests under KLU

Under the supervision of KL University's NSS department, pharmacy volunteers conducted blood tests in Gundimeda village, Tadepalli Rural, including areas like Mangalagiri and Nagarapalam. Pharmacy lecturer Dr. R. Supriya emphasized the importance of knowing one's blood group, highlighting that health issues often stem from conditions like anemia. A total of approximately 263 individuals underwent blood tests during the program, which saw participation from various stakeholders including P. Suresh, G. Chandra Khar, ANM B. Latha, Asha Workers M. Vijaya Rani, N. Aruna, KLU NSS volunteers, and others.
