Objective:

To raise Cholesterol awareness the KLEF_YRC volunteers and College of Pharmacy students along with YRC conducted **Awareness on Cholesterol door to door campaign** at Gundimeda Village on 24th November 2023.

Description:

Cholesterol is a substance found in both the body and in many foods. While the body relies on cholesterol to function, excessive build-up in the arteries can cause them to narrow and may put a person at risk for chronic disease or even death. Anyone can have high cholesterol, regardless of age. High blood cholesterol is a serious condition that increases the risk for developing heart disease, which causes 1 out of every 4 deaths in Florida. The higher a person's cholesterol level is, the greater their risk is. People with high total cholesterol have approximately twice the risk of heart disease as people with optimal levels. Lowering cholesterol levels that are too high lowers the risk for developing heart disease and reduces the chance of having a heart attack. High cholesterol frequently remains untreated because there are usually no symptoms.

Procedure of the Event:

1. The KLEF_YRC volunteers and college of pharmacy, arrived at Gundimeda Village.
2. They commenced the event by explaining the Cholesterol awareness.
3. The team provided information about how Cholesterol awareness can be useful information to people to know about the problem
4. The students and participants actively engaged in awareness of the program and asked questions related to the and Cholesterol Awareness
5. The KLEF_YRC team volunteers and college of pharmacy students along with YRC facilitated interactive sessions and clarified any doubts or queries.
6. The event concluded with the students and participants gaining a better understanding of the Cholesterol Awareness

Outcome:

1. The event successfully raised awareness about Cholesterol awareness among the students and participants.
2. The KLEF_YRC team volunteer and college of pharmacy students effectively organized the program, ensuring that the main objective of creating awareness was achieved.
3. The volunteers demonstrated professionalism and friendliness throughout the event.
4. The people of Gundimeda Village actively participated and expressed interest in the Cholesterol awareness.
5. Some people showed interest in asking questions and clarified their doubts.

Overall, the Awareness on Cholesterol awareness program conducted by the KLEF_YRC volunteer team and College of pharmacy along with YRC students at Gundimeda Village on November 24 , 2023, successfully educated participants about the Cholesterol awareness and educated them what to take and how to be in the daily life
