Objective:

- ☐ Educate the community about common infectious diseases, their causes, and symptoms.
- ☐ Promote healthy habits like handwashing and proper hygiene to prevent disease spread.
- ☐ Encourage timely vaccination to build immunity against preventable diseases.
- ☐ Empower individuals to recognize the signs of illness and seek prompt medical attention.
- ☐ Address misconceptions and misinformation related to infectious diseases.

Description:

An awareness on infectious diseases aims to raise awareness about infectious diseases within the community. Through engaging workshops, educational materials, and community outreach programs, we will empower individuals with knowledge about common infectious diseases, their modes of transmission, and effective prevention strategies. By fostering a culture of hygiene, vaccination, and early detection, we aim to reduce the spread of infectious diseases and promote overall health and well-being in our community.

Procedure of the Event:

The KLEF_YRC team conducted awareness on infectious diseases.

1. They commenced the event by explaining the importance and purpose of infectious diseases
2. Organized by the YRC volunteers from KL University.
3. Human chains were formed at various points, symbolizing unity on infectious diseases awareness
4. Engaging activities, especially for the younger generation, were organized to educate about Awareness on infectious diseases .
5. The students were divided into different teams, and each team along with faculty.
6. Members with the support of local Asha worker, went to the houses of villagers and explained about awareness on infectious diseases.

Outcome of the event:

1. The event successfully conducted the awareness on infectious diseases among the students and participants.
2. The KLEF_YRC team effectively organized the program, ensuring that the main objective of infectious diseases was achieved.
3. The volunteers demonstrated professionalism and friendliness throughout the event.
4. People in the KLEF actively participated and expressed interest in infectious diseases awareness.
